THANKS

to all of those who forward the cause of beautiful original music... the venues, patrons, players, engineers, composers, artists, luthiers, LISTENERS, and especially our friends in the trenches: rudder, ari hoenig, john ellis, zach brock, eastern blok, oso closo, keite young, myron butler & levi, and bobby sparks. keep on. to the ever-growing snarky puppy family, whose continual sacrifices have sustained this crazy animal. i am so obliged. chris godbey, you are amazing. thanks to you, eric and brandon for capturing the sound. and to all of the wonderful musicians of dallas, texas- you have transformed this group without knowing it. to all of our families, especially my madre.

a very special thank you to robert searight for making all of this possible.

and an extra special thank you to bernard wright, without whom the world would be a sad place. this record is for him. thank you for everything.

and to you for listening to our music.

we are so grateful for your support.
